

THE CHARLEROI MAIL

NO 187

CHARLEROI, WASHINGTON, CO. TUESDAY, JANUARY, 14, 1914

TWO CENTS

COMMUTATION TICKETS GOOD ONLY ONE MONTH IN WHICH ISSUED

New Ruling Goes Into Effect On The First of February

CHANGES A FORMER RULING

Railway heads of the Pittsburgh district have received orders from the Federal Railroad Administration that the validity of all commutation tickets in the Allegheny district shall begin and end with the beginning and ending of calendar months. The order goes into effect February first. The administration's order changes the practice of issuing tickets for a month to start any day in the month, to a ruling whereby the tickets will be issued to start always with the first day of the month. No tickets will be issued to start on any other day.

The Allegheny district was the only section of the country in which tickets could be purchased for a period starting on any day of the year, and the condition was brought about by a ruling of the Public Service Commission of the State in 1914 that commutation tickets should be good for any 30 days from any date, irrespective of the calendar month.

So that the gap may be filled between the time in February at which commutation tickets expire and the first of March, commuters may purchase a ticket covering that period at the same proportionate rate on which they bought the 60-day ticket. The present limitation of 46-day monthly school tickets will be continued until the close of the current school year.

FUNERAL SERVICES FOR CATHERINE MARY MOGAN

Funeral services for Catherine Mary Mogan, daughter of Mr. and Mrs. C. J. Mogan, who died at 8 o'clock Monday morning, will be held from the home of her parents, No. 566 Crest avenue at 8:30 o'clock Thursday morning. Requiem High Mass at St. Jerome's Catholic church at 9:00 a. m. Interment in St. Mary's cemetery Pittsburgh the funeral party going by automobile.

SUPREME COURT RULES ON "BONE DRY" LAW

The supreme court on Monday reversed the ruling of the lower courts that the Reed "bone-dry" amendment does not prohibit the interstate transportation of liquor into West Virginia if it is for personal use. Dissenting Justice McReynolds said the amendment, as construed by the majority opinion, was not constitutional. Justice Clark concurred in the dissenting opinion. Under the ruling of the supreme court the law prohibits the bringing in of liquor for personal use.

Union Memorial Services Sunday Afternoon Next

Union Memorial services will be held in the Palace Theatre Sunday afternoon, January 19, at 2:15 o'clock, in honor of the soldier dead of CharleROI and vicinity. A program for this service is now being prepared, with Prof. Daniel in charge of the music and a number of able speakers already engaged. All veterans of the civil war, of the Spanish-American war, and veterans of foreign service, as well as those of the war '17-'18, are invited to be present, as well as all the members of all those families who have lost loved ones in the great conflict which so recently came to a close. In addition the Boy Scouts, the CharleROI Fire Department and members of the Home Defense Police are likewise invited to be present. The Burgess and members of Borough Council, members of the school board, as well as the borough police are to meet at the borough building at 2 o'clock, sharp, and from there march to the Palace Theatre. The general public is also invited to attend, as it is hoped to make this memorial a true expression of the sentiments of the community toward those who have given all for our ideals of government. Capt. J. E. Hein, Joseph Brand, Charles VanVoorhis, Committee.

Health Board Adopts Important Resolution

A special meeting of the CharleROI Board of Health was held in the borough building Monday evening at which a number of important resolutions were adopted, and which will be made effective at once. Prompt action on the measures were deemed necessary because of the health reports during the 48 hours ending Monday evening, which showed that 64 cases of influenza had developed in CharleROI within that period, a condition which called for effective means to combat that situation. Those in attendance at the meeting were Messrs. Evans, Murphy, O'Neil and Dr. Hunter. A resolution providing that the advisory committee of the Board meet with the school board at the earliest possible moment and request the school board to appoint a resident nurse to supervise the health of the school children, was presented and on motion duly approved. Another motion provided that all picture houses in the borough be restricted to the seating capacity of their auditoriums, which was also approved, while a third provided that pupils who have had influenza should not be admitted to school for a period of ten days following recovery, and pupils from a family infected with influenza should be excluded from school unless they have had influenza.

LICENSE ON DOGS BEING PAID SLOWLY

Residents of Washington county who own dogs and have not renewed their licenses to keep them this year have until tomorrow to do so. After that date all dogs that do not carry license tags on their collars may be put to death under the dog law of 1915. So far but comparatively few licenses have been taken out, when the number of dogs in the county is considered. The dog tax fund runs usually about \$10,000 annually in the county which means that tax is paid on about 7,000 dogs. The tax is \$1 for males and \$2 for females.

Social at Rodgers School An Odd Social will be held at the Rodgers school Fallowfield township on the evening of Friday, January 17. Ladies are requested to bring box pie and two odd articles alike. Ice cream and cake will also be served. All are cordially invited to attend. Teachers are Lillian Kinder, Harry W. Carson. 184 11-p ward of Washington.

ADMIT CLAIM OF ASSESSOR IS GOOD

In an affidavit of defense filed by the county commissioners in the Washington county courts on Monday and signed by John O. Watson, A. Barnum and Thomas Hill, the three members of the board, in the case filed against Washington county by Joseph L. Myers to recover \$185 for making the triennial assessment in the Fifth ward, Washington, all of the allegations made by the plaintiff are admitted to be true. For further answer the county commissioners state that they approved this claim for payment, but that the same was not paid because the county controller refused to approve it when duly presented to him. The commissioners state further that they believe that the controller had no valid reason for refusing this claim, and they know of no reason why the said salary should not be paid. The case is an outgrowth of the triennial assessment of the Fifth ward of Washington.

FOREIGN COAL SHORTAGE LIKELY TO AFFECT SMALL MINE PRODUCTION

HISTORICAL SOCIETY RE-ELECTS OLD OFFICERS

A meeting of the Washington County Historical Society was held in the public meeting room of the court house on Monday night, for the purpose of electing officers for the ensuing year. All the old officers were re-elected as follows: President, Samuel Amspoker vice president, Joseph McFarland; secretary-treasurer, Miss Jane Hall; curator, Alexander Reed; directors, Judge James I. Brownson, Mrs. Martha Montgomery, Alexander Templeton, J. V. Clark.

May Again Become Big Factor Because of Large Foreign Demand

MEANS EAR OF PROSPERITY

While the activity of the wagon mine operator has been greatly restricted since the first of the year, it is not unlikely that he will again become an important factor in the coal trade of this district within a comparatively short time.

The wrecking of the rich coal mines of Northern France by the Germans, according to Richard W. Gardiner, manager of production and distribution of bituminous coal for the Pittsburgh district, will result in a great stimulus to the coal situation of this country for several years, especially in Pittsburgh and West Virginia. According to the report of a special commission sent to France by Federal Fuel Administrator Harry A. Garfield to study the fuel situation there, it will take France three years to efface the devastation on her coal fields. The reports also state that the great reserve stocks of coal which France had built up are gone, and that even the stocks of public utilities are at the danger point.

France's minimum needs of coal a year are more than 60,000,000 tons, which she must get elsewhere for a year or two, because of the destruction to mines in the Lens coal fields by the Germans. After the war, the Lens coal fields could only be found by careful search. They are worthless for operating purposes until excavating and repairing are done.

Before the war France produced 40,000,000 tons of coal, annually leaving 20,000,000 tons which had to be imported. The government of France has assumed complete control of her coal industry and it is looking to the United States to help supply her with the more than 60,000,000 tons she will need annually. While France may not get this coal direct from the Pittsburgh district, she will get a very large supply from the coal fields in West Virginia, Kentucky, Ohio, Indiana and east of Pittsburgh, which will affect the coal industry of the Pittsburgh district by increasing demands for it because of the great drain on the other fields mentioned. Pittsburgh coal is too valuable for home consumption.

Continued on Page 2.
WARNS AGAINST USE OF FLOBERT RIFLES

GRIPPE TROUBLES PUBLIC SCHOOLS

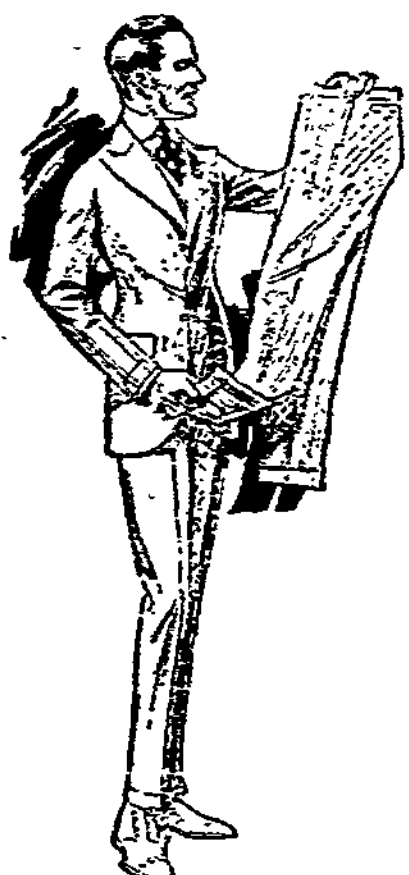

Four teachers from the High school and four from the grades are off duty today on account of an attack of what is pronounced the grippe. Quite a number of pupils in the public schools are also detained at home on account of bad colds. This invasion assembly of April 15, 1903, which of the schools by colds and grippe has made it somewhat difficult to conduct the regular schedules, although any city, or borough of the commonwealth are being dealt a flobert rifle, air gun, spring employed. Prof. Pollock hopes that the trouble will soon be over, that the pupils will be able to get down to any kind, will be henceforth rigorously enforced.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. Watch the kidneys.

The kidneys are the most overworked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, high colored or scanty urine, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Go to your druggist immediately. Get a trial box of GOLD MEDAL Haaslem Oil Capsules imported direct from the laboratories in Holland where they have been in use for over two hundred years. They will give almost immediate relief. If for any cause they should not your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes.

SPENDS \$1,500 IN HER SEARCH FOR GOOD HEALTH

Many friends of Mrs. W. W. Herish of Soudersburg, Pa., near Lancaster have remarked on her almost miraculous return to health and Mr. Herish feels it owes it to the public to make known the true facts in the case. He said:

"During the past thirty years I have spent at least \$1,500.00 in medicines and doctors' bills in an effort to find a cure for my wife's stomach trouble. But it was money thrown away for she kept getting worse and worse.

"The lining of her stomach was as raw as a piece of meat and she couldn't eat anything without causing her terrible distress. Anything fried or greasy was poison to her. Her nervous system was a total wreck, and the least little thing would irritate her and at night her nerves would jump and tingle so that she couldn't rest, and she would get up every morning with a bursting headache. We decided to give Tanlac a trial and to our delight and surprise, it helped her right away, and now she is in perfect health.

The genuine Tanlac bearing name J. I. Gore Co. is sold by Frank J. John and Pipers Pharmacy.

Postponed Euchre.

The third of the series will be held in St. Jerome's Lyceum Tuesday evening, January 14 at 8:15. Admission without tickets 35c. Beautiful favors. All are welcome.

UNCLE SAM WILL ASK US TO FINISH OUR JOB IN APRIL

FIFTH LIBERTY LOAN MUST BE FLOATED TO MEET VAST EXPENSES OF RECONSTRUCTION.

Speculation has been rife in almost every corner of the United States as to the appeals and sales methods to be employed in the Fifth Liberty Loan campaign the last three weeks of next April.

Washington itself is still speculating on the terms of the issue but the method of sales and of appeals are pretty well worked out. The appeals to be made to the buyers of bonds are all offshoots of the two most obvious reasons why Americans should readily and quickly subscribe the issue. America has a job to finish and bonds backed by the American government are the safest investment in the world and will be for years and years.

A committee named at a recent meeting in Atlantic City of representatives from each of the twelve federal reserve districts is working out the outlines of the appeals now. Seven men were appointed at the conference to work under the chairmanship of Guy Emerson, director of publicity for the Liberty Loan in the New York district.

Finishing the job in the minds of these men means the bringing back of the army and navy men overseas, the caring for the sick and wounded among them, the financing of the reconstruction work in which the United States will have to play a big part and the many, many tasks, small specifically but huge in the aggregate, which will be entailed in the general job of demobilization and readjustment to a peacetime basis.

Enough is known as to the terms of the bonds of the Fifth Loan to make it certain that their appeal as a strategic move is well-timed. This appeal feature has obtained in all of the previous bond issues but particular stress has not been put upon it. In the Fifth Loan it is to be one of the principal arguments for the sale of the bonds. There is not only the attractive rate of interest for an absolutely safe investment but there is the certainty that the bonds will soon command a higher price than their purchase price.

The Protected Home Circle will hold a social in their lodge room Wednesday evening, January 15. Music. Lunch will be served, consisting of ice cream, cake and coffee. Admission 25c.

EQUAL PAY WILL LIKELY CONTINUE

In the readjustment incident to the change of industries from a war to a peace basis, the principle of equal pay for equal work, enforced by the Department of Labor wherever it had power to dictate, will have a widespread influence, according to economists. In his report just issued the Secretary outlines the policy pursued by the War Labor Board as follows:

"The rights of women in industry have been rigidly protected by the War Labor Board with respect to questions of wages, health and general welfare. In all cases where women perform the same work as men they shall, according to the policy of the War Labor Board receive precisely the same rate of pay, and in no case be allotted tasks disproportionate to their strength.

HURLS SEEDS LONG DISTANCE

Witch-Hazel Has Record of Forty Feet or More, as Shown by an Experiment.

The curious manner in which the witch-hazel sprays its seeds has been described by Dr. Edward S. Burton of the U. S. National Museum in "The Day's Work." He says:

"No other plant can shoot its seeds so far and so violently as this one. I do not know how far it can shoot, but in experiments actually made a distance of 30 feet has been reached. The experiment was made in this manner: The fruiting branches were suspended at the end of a 70-foot line. At the extreme farther end of the room on my seeds were found. Some had been shot through an open door, but just how far I do not know. Various other experiments suggest that the seeds may be thrown to a distance of 40 feet or more. The books say that witch-hazel berries and discharges its contents with great vigor. It certainly does. Experiments with the bursting pots and the aging seeds may be dangerous. I never happened to be hit by the flying masses, but I should not like to have one strike my eye, especially if the eye were near the capsule. The discharge is accompanied by a snap almost like that of a small pistol. If you repeat this experiment, let them not forget this warning."

NO REASON FOR MONOPOLY

If Whales Are to Be Used for Dairy Purposes, Let Whole Country in on It.

An official of the state agricultural department of Oregon recommends the cultivation of the whale for milking purposes, says an article in Thrift Magazine. Enough whales could be used right in Puget sound, he says, to supply the United States with all the milk she needs. The female whale is a generous creature and gives a barrel of the best fluid at one milking.

This is a timely suggestion, but why keep all the whales in Puget sound? Would not such a plan be selfish, sordid and monopolistic? If we are going to be truly democratic in this country, let's be so in the matter of whales. Let every farmer keep his own whale. What would be more inspiring than to see the happy husbandman arise while the King of Day was still lurking bashfully behind the eastern horizon, grab the family milch barrel and hurry out behind the barn to give old Flossie, the family whale, her morning milkin' in the spring when the little whalelets begin to show up, think of the gross annual output of poetry that would be inspired in the breasts of our literati. It would be a rank and infamous injustice to let Puget sound have a monopoly of the national supply of dairy whales.

That Black Cat Stuff.
"Superstition is certainly a funny thing," observed the almost philosopher. "Take, for instance, the fellow who is scared to see a black cat run across his path."

"He'll argue that there is nothing supernatural about him and a black cat happening to be near the same place at the same time. And when it comes right down to facts there is only a 100th of a chance that a black cat will ever be seen again."

"If a black cat ever does appear again, it will be because of the superstition of the man who is scared to see a black cat run across his path."

Birds Destroy Caterpillars.

When the birds open in spring, birds of the family caterpillars emerge, only to be preyed upon by the voracious birds. The birds are not only the great destroyers of caterpillars, but they are also the great destroyers of the caterpillars' eggs. As summer comes and the caterpillars grow in size, each brood is reduced in number, until as they approach full size, a hand which erstwhile numbered hundreds of little crawlers has shrunk to a score or two, a "baker's dozen" or even less. When the survivors pupate they are still attacked by birds, and the moths or butterflies as they emerge and try their wings are pursued by their swifter feathered enemies.

Blarney Stone Tradition.

The Blarney stone inscription is getting dim. It reads: "Cornach MacCarthy; fortis ut levi facti, A.D. 1449." The tradition about the stone is, of course, that when the Spaniards were urging the Irish chieftains to harass the English, one Cornach MacCarthy, who held the castle, had concluded an armistice with the lord president on condition of surrendering it to an English garrison. Carthy put off his lordship day after day with fair promises and false pretenses, until the latter became the laughing stock of his acquaintances, and the Spaniards, who were then and there, were stamped with the title of "Blarney."

Mrs. A. Turnbull, Jr. and Miss Margaret Turnbull spent Tuesday in Pittsburgh.

GEN. COULTER TO SPEAK IN MONESSEN

France has poured out blood and treasure to the breaking point to make the world safe for democracy. America owes her an enormous debt of gratitude for this and as for a perfect remedy for stomach, liver and intestinal trouble found by her peasants and used with reported marvelous results in this country. Geo. H. Mayr, for many years a prominent Chicago chemist, imports the ingredients and sells this remedy under the name of Mayr's Wonderful Remedy. It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Pipers Pharmacy, Carrolls Pharmacy and druggists everywhere.

FOREIGN COAL SHORTAGE AFFECTS MINE PRODUCTION

Continued from Page 1

for metallurgical purposes, such as coke, by-product ovens, coal gas, etc., to be exported, but the gap made in the production of the other fields of the country will be partly supplied by Pittsburgh coal.

As soon as transport service is available, it is likely the coal fields of the United States will begin to feel the stimulus of his foreign demand, which will undoubtedly have some influence on the smaller operators.

"GET WISE"---IN TIME

Why not get wise in time? Why wait till it is too late? People all over the country, north, south, east and west, are getting wise to the ruinous results of out-of-town buying. Thinking people are now refusing to patronize out-of-town houses. Are we going to wait until we are knocked down and run over before we "get wise"? Let us spend our time and money in building up something that is ours. Patronage of home business means the building up of a strong industrial community of our own. Neglect of home business interests means the building up of a machine that will one day crush us without mercy. Let us build for ourselves and for our families and neighbors. Let us "get wise" before it is too late.
